

Whether you're an avid PacBio user or are interested in learning how highly accurate long-read sequencing, or HiFi sequencing, can help you answer your toughest biological questions, the PacBio Asia Pacific Virtual HiFi Sequencing Summit has something for you.

So join us on **7 December 2020, from 12 to 4pm (Bangkok Time)** for this exclusive 4-hour interactive event to connect with our Asia Pacific and Global network of scientists, sequencing experts and bioinformaticians who are using HiFi sequencing to advance their research.

Confirmed Speakers include:

Zhou Qian, Ph.D.
Assistant Researcher
Peng Cheng Laboratory,
Shenzhen

**Naomichi Matsumoto,
M.D., Ph.D.**
Professor & Chair,
Department of Human
Genetics
Yokohama City University

Jonas Korfach, Ph.D.
Chief Scientific Officer
PacBio

Tang Chong, Ph.D.
Director of Product,
Director of R&D
BGI
